

# CAMagic® Mobile

PIM Sync, Messaging, Multimedia, and Internet Connection Software for Mobile Phone

**CAMagic® Mobile is a highly advanced mobile phone-PC tool for improving personal productivity. This all-in-one application has a user-friendly interface with 18 languages. It allows you to not only synchronize your Phonebook, Calendar, and To-Do List, but also send SMS messages, customize your ring tones, enhance your photos and videos before sharing with others. Moreover, CAMagic® Mobile stores 250 telecom carrier profiles from 75 countries, and configures automatically to use your mobile phone as a modem for Internet access around the globe.**

## **For your personal information management**

- Back up, manage, and edit Phonebook contact list
- Update and sync Calendar as well as To-Do list
- Sync mobile phone PIM data with Microsoft® Outlook®, Microsoft Outlook Express and Lotus Notes® R6/R7

## **For your phone's music and ringtones**

- Make ringtone from CD music or MP3
- Modify MIDI tracks with multi-channel editor
- Mix and master your music in our sound engineering studio
- Convert and upload audio files to phone

## **For your phone's photos and movies**

- Download, edit, and print your photos
- Produce professional-caliber photos featuring a full range of editing options and one-touch photo correction
- Copy, cut, and paste from different files to create your own home movies

## **For your mobile messaging and Internet connection**

- Read, write, and manage SMS messages on your computer
- Connect to the Internet through your phone's 3G or GPRS service
- Store 250 telecom carrier profiles from 75 countries.
- Automatically set up and store your APN, IP, ID and password information

## **Bluetooth® Wireless Technology + Cable connectivity**

CAMagic® Mobile transfers data between mobile phone and computer with *Bluetooth* wireless technology or through a USB cable. The automated search and pair utility with *Bluetooth* wireless technology locates your mobile phone easier than ever.

## **Comprehensive stack driver support**

CAMagic® Mobile supports stack drivers from IVT, Toshiba, WIDCOMM, Microsoft Windows XP SP2 and Vista, and supports UNICODE.
