

CAMagic® PhoneCopier for Smartphone/PDA phone

A complete phone-to-phone data transfer solution!

■ Overview:

To encounter all the inconvenience of transferring handset data through PC-based sync tools, A&W now proudly introduces CAMagic PhoneCopier, a complete solution that provides phone-to-phone content transfer, including handset phonebook, SIM card phonebook, calendar, task, text messages, photos, music files and more, from your handset to any brand new Smartphones/PDA phones via *Bluetooth*®, no PC needed!

Phone-to-phone content transfer

■ Features:

- Provide predefined table of fields mapping for Contacts, Calendar, Task and Short Text Message.
- All contact data can be imported and mapped to correct fields automatically.
- Import all data of Calendar and To Do List, including reminder and repeat cycle, etc.
- Enable/Disable *Bluetooth* radio of WM device automatically.
- Step by step wizard: user can easily search and connect to a *Bluetooth* phone.
- Auto detect phone model and show available data for migration.

■ Advantages:

For phone manufacturers/OEMs and mobile operators:

- Phone-to-phone data transfer
- No extra *Bluetooth* profiles needed, reduce the system resource allocation.
- No tool installation required; no PC needed.
- No PBAP or OPP required
- Encourage replacement of old phones
- Increase subscription plans
- Promote customer satisfaction

For end-users:

Feature personal content by simply one click!

- Contact data
- Multimedia: Ringtones, photos, videos
- SMS
- Calendar
- To do list

■ Supported Phones:

Copy personal content from over 400 legacy phones to your new phone, including the most popular/latest released mobile phones manufactured by:

Nokia/SonyEricsson/Motorola/Samsung/Siemens/Sharp/LG/Sagem/Toshiba/
Panasonic/BlackBerry/Dopod/HTC/HP/Apple/O2/ETEN

(The copy functionality depends on the original phone's available service.)

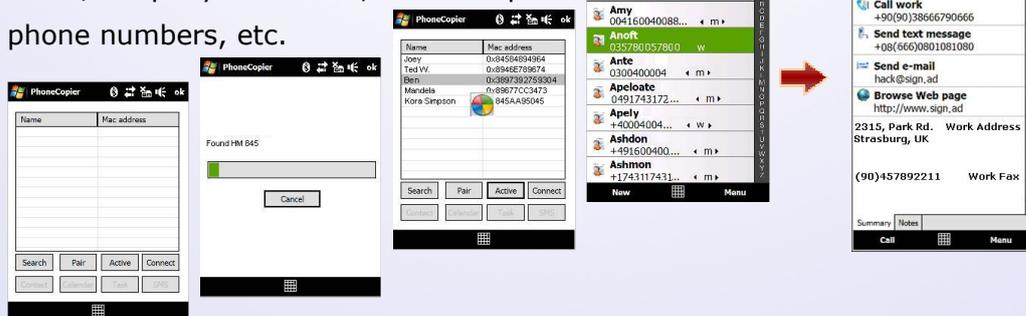

■ System Requirements:

- Windows® Mobile 6.1 Professional or Android™
- Required space: 7MB

For other supported platforms, please contact our sales representatives for further details.

■ Content transferring...

The fields in Contacts may include website, e-mail addresses, home/company addresses, and multiple phone numbers, etc.
